

# A Guide to Creative Colours & Finishes

We recommend using this guide to request a painted sample from your supplier prior to placing your order

# ♦ Durable, beautiful and guaranteed to last

Committed to the highest standards of product quality and workmanship, we undertake a rigorous regime of quality inspections and controls, ensuring our powder coated products comply with all the requirements of the relevant British, European and Qualicoat\* standards.

We are proud to back our advanced production processes with the assurance of a **25-Year Paint Guarantee**, which covers the coated aluminium against any of the following faults:

- ♦ *Peeling, powdering and blistering*
- ♦ *Corrosion except due to bending or folding after the application of the paint*
- ♦ *Chalking, fading and loss of sheen out of the Qualicoat\* regulation*
- ♦ *Filiform corrosion*

♦ *Request a painted sample of your chosen colour before making your final decision.*

\* Marine guarantee applied for separately. Qualicoat is a quality-label organisation established to maintain and promote the quality of coating on aluminium and its alloys.

# Alchemy

Combines the best of anodised  
and powder coated finishes

Introducing an innovative new range of anodised  
effect colours that combine the unique style and

architecture and restoration projects

Beautiful colour-rich coatings, in a variety  
of versatile shades, the ever popular 'Naturals'  
range offers style and protection for all your  
Smart windows and doors.

## Reassuring quality with a lustrous finish

Our in-house polyester powder coating facilities  
are the most advanced of their kind in the UK.

This allows us to provide the widest range of high quality  
standard and non-standard colours and finishes for virtually  
every requirement. Each finish meets the demanding  
marine-grade standard\*, enabling our systems to be  
used in even the most challenging environments.

The paint process begins in our pre-treatment area.  
Alkaline and acid based and 100% chromate free, this stage  
of finishing ensures the aluminium is perfectly prepared,  
ready for the polyester powder coating to be evenly and  
smoothly applied to the surface. The result is a beautiful,  
durable and low-maintenance finish.

Reflecting our commitment to sustainable manufacture,  
our finishing plant incorporates a number of environmental  
features. These include rainwater capture, allowing us to  
use filtered and cleaned water in the pre-treatment process,  
and a powder recycling system, which captures and re-uses  
98% of all excess powder.

\* Marine guarantee applied for separately. Qualicoat is a quality-label organisation  
established to maintain and promote the quality of coating on aluminium and its alloys.

excellent design qualities

An exclusive range of metallic finishes that combine with a unique  
tactile finish to bring style and durability to any building project.  
Ideal for both modern architecture and restoration projects,  
'Sensations' broad palette of colours and provides  
a unique finish to windows and doors.

# Choosing the right colour for your home

Having selected the finish for your project, simply speak  
to your supplier and they will arrange for a sample to  
be sent to you. This is a very important stage in making  
completely sure the tone and shade are exactly what you  
want. We have taken great care to make the colours in  
this brochure a close representation of the finishes  
available. We always recommend viewing a painted  
sample of aluminium before making your final decision.

Our extensive and varied range of colour and finish options  
provides inspiration for all types of properties. From contemporary  
urban homes to traditional Cotswold cottages, we have the  
perfect colour to suit every project in any location.

The complete range includes our ever-popular Naturals,  
Sensations, Cotswold and Alchemy collections, as well as the  
all new Creations colour palette, developed specifically to suit  
our range of Designer Doors.
