

W SMART SOLAR CONTROL

Uni-Blinde®

Innovation comes built-in

INNOVATION COMES BUILT IN

Wire-free solar powered, eco-friendly simplicity is at the heart of the advanced W Smart system with ScreenLine® inside. This system enables a Venetian blind encapsulated within a double-glazed unit to be raised, lowered and slat tilted via a single control device attached to the window, or by remote control. Suitable for both residential and commercial environments, W Smart is sleek, maintenance-free and available for Uni-Blinds® integral blinds within 20, 22, 27 or 29mm cavities.

Why choose the W Smart?

W Smart is perfect for sustainable homes and commercial properties. It combines the latest innovations in ecological Italian design with the long term reliability and superb build quality that defines every ScreenLine® system. The carbon-saving motorised blinds feature a smooth and quiet 3.6V motor, powered by a solar power charged lithium-ion battery, for use any time of the day or night. They are easy to operate too thanks to an intuitive touch control unit complete with LED illuminated arrows and low-battery indicator.

BENEFITS OF THE W SMART

A remote-controlled integral Venetian blind which oozes appeal:

- Streamlined installation procedure
- No need for an electrician to install
- Energy saving
- For 20, 22, 27 and 29mm cavities, in Venetian Uni-Blinds®
- Touch control keys
- Radio remote control supplied as standard
- Batteries can also be recharged by means of a micro-USB connector
- Compact battery module, developed in co-operation with design specialists

HOW THE W SMART OPERATES

 RAISING

 LOWERING

 TILTING

Light control

Provides high solar protection, privacy and excellent light control.

Wide range

Available for Venetian for 20, 22, 27 and 29mm insulating glass units.

W Smart control system

In W (Wireless) Smart systems, blinds are raised and lowered by a control device which allows light and heat gains to be adjusted with ease. A user-friendly, versatile and energy-saving system, its power comes from an externally mounted solar panel and it is guaranteed to provide excellent shading performance.
